

BRITISH INTERNATIONAL PROGRAMMES AT MIC SYRIA

Mamoun International Corporation, MIC keeps implementing the best international programmes from the best international institutes.

Through our forty years of experience we offer and keep offering the best training services.

We help you in developing your skills and knowledge, and choosing your career.

MIC was aware of the accelerating development in the international economic field and the students' requirements to follow international programmes in computer science, telecommunication, information technology and business studies.

MIC has international educational agreements with many distinguished Universities and institutes in Britain to furnish the students with their programmes and expertise.

Mamoun International Corporation, during its forty years of experience, had trained thousands of graduates in any different fields. This process is beneficial to both companies and individuals.

Dr. Mamoun Hallak, Dip.Eng the Chairman and General Manager of Mamoun International Corporation declared that there is a significant effort in the field of vocational training, and the graduates of City & Guilds, London City College, University of Cambridge and the Association of Business Executives Programmes are filling the increasing demand for qualified personnel during the stage of Technological Progress that Syria is witnessing.

Dr. Mamoun Hallak, Dip. Eng. British Ambassador, and representatives of British and American Embassies in the Party of delivering London City College Certificates.
