

We give you the missing piece

Diar Consulting & Commercial Representation was established in 1991 to represent foreign oil & gas companies in Syria. It was born out of a faith in Syrian potential and enthusiasm to optimize considerable opportunities.

 Diar is well equipped to confidently advise and assist with any dealings with governmental departments and institutions at all stages of a project and sidestep potential landmines.

 At Diar, we are always eager to hear from companies and hopefully embark on fresh and exciting opportunities in Syria and the region.
