

WORLD TRAVELLER PLUS

WORLD TRAVELLER PLUS

the comfort you've asked for at prices you can afford

improved margins

You told us you'd like extra comfort at value for money prices, so we've built on the benefits of World Traveller to bring you World Traveller Plus. With a maximum of only five rows, this creates a spacious, quieter new economy class in a completely separate cabin. There's a brand new seat with a 38" pitch (That's up to 7" more legroom than World Traveller). It's

wider than standard economy class too, giving you more space to stretch out and enjoy 12 channels of entertainment on your seat-back video. If you need to work on-board, every seat has built-in power for your laptop and a phone. However you choose to spend your next longhaul flight, World Traveller Plus will do everything but cramp your style.

Log on to www.ba.com or call British Airways in Riyadh on 464 5550 or your local travel agent to find out more.
