The Embassy Project List

The Embassy Project List has been developed by the Commercial Section of the British Embassy with the assistance of the BDSC. The list provides information on major projects in Saudi Arabia and is categorised by the various business sectors. Should any member require information on those projects they can apply to the Commercial Section of the British Embassy.

The list is developed on a 2-way process i.e. information is exchanged between the Embassy and RGGB members. I would strongly urge both existing and new members to provide any

information they may obtain on current or planned major projects in any sector so that the Project List can be maintained as extensively and accurately as possible, for the mutual benefit of all concerned.

Members wishing to contribute information should use the "Input Form" above, and forward to John Freel (Fax No.: 476-4496) or to Ted Cole at the British Embassy (Fax No.: 488-2373). All information is dealt with on a confidential basis and is used with appropriate discretion.
