

THINGS YOU SHOULD CONSIDER NOT DOING BETWEEN DECEMBER 30, 1999 AND JANUARY 5, 2000

1. Fly on an airplane (air traffic control may be disrupted or fail; on-board computer systems may fail)
2. Use an elevator (Elevators may stop suddenly between floors; doors may fail to open)
3. Schedule any medical tests or surgery in a hospital (hospital records may become corrupted; emergency systems may fail)
4. Make a long distance call at midnight, Dec 31, 1999. (you might get charged for a 99 year long phone call)
5. Ride a train or any underground people movers (subways, etc) (traffic systems may fail, automatic systems may malfunction)
6. Don't use an ATM machine (your bank account records may reflect an incorrect withdrawal amount)
7. Don't make a bank deposit (your account may not reflect the deposit)
8. Don't pay any bills (pay any bills due the first few days of January, 2000 the middle of December, 1999. Send payments via registered mail (this one time) and keep good records of the payment: (You may find that your account is not properly credited)
