

Michael Dixon, Chairman and one of the founding partners of Buro-Happold, Foster & Partners joint venture partners on the project, said "The exceptionally good spirit on this project is a product of the client, consultant and contractor working together to achieve a common objective.

Both men had been introduced to their audience by HH Prince Bandar bin

Saud bin Khaled Al Saud, Secretary General of the King Faisal Foundation. The Prince declared "...the building of Al Faisaliah embodies a sense of aspiration while establishing our society as a major Commercial Centre in the eyes of the world."

The project will certainly set some records and standards, Jaspers fascinating talk at the RGBB lunch a few months ago revealed some startling facts & figures and gave rise to more questions than he had time to answer.

Below are a few of the figures he left out.

If all the cables on the site were laid end to end, they would reach from Jeddah to Dammam!

If all the rebar used on the job were laid end to end, it would stretch from Riyadh to London!

LOOKING EAST

AL JAZEERA SUPERMARKET

FISH & CHIP SHOP

TAHLIA ST.

KHORAIS ROAD

THALATEEN ST.

The approximate weight of the tower is 100,000 tons!

The public address speakers provide 4.2 kw of power equivalent to 400 car stereo systems.

Energy produced by the projects a/c chillers is equivalent to 30,000 refrigerators.

Companies seeking further information on the leasing opportunities within the complex should contact the Al Khazama Management Company in Riyadh on
