Introduction of A Levels Multinational School September 2008

The Multinational School is proud to introduce the General Certificate of Education (Advanced Level) commencing September 2008 as part of their commitment to provide students with the highest standards of excellence in an academically stimulating environment.

The General Certificate of Education (Advanced Level) is a two year course and is considered the pathway to university studies in many countries. It is one of the most recognized qualifications around the world and is accepted as proof of academic ability for entry into universities.

The A Level examinations are usually based on approximately 360 hours of guided learning over a two year period. They are highly specialised and a student will normally take three subjects, although occasionally exceptional students take four. The Advanced-Level Subsidiary represents the first half of an A Level course but may also be taken as a free-standing qualification.

The Multinational School will offer the 'Advanced-Level Subsidiary' in September 2008 and 'Advanced Level' in September 2009. Registration and further information regarding the General Certificate of Education (Advanced Level) will be available at the Multinational School from Saturday 12th April, 2008.
