

WHAT IS AN AUSTRALIAN EDUCATION CURRICULUM?

Every parent strives to provide the best for their child. Perhaps the most important gift you can give to your child is an excellent education. And what could be a better investment for your child's future than enrolling them at the Multinational School?

The Multinational School runs the Victorian Education Curriculum which is overseen by the Victorian Curriculum Assessment Authority and the School is accredited by the Victorian Department of Education, Employment and Training (DEET).

In Australia the Government has in place for its Education, a Curriculum Standards Framework, which is a National curriculum outlining, eight key learning areas.

ENGLISH, STUDY OF SOCIETY AND ENVIRONMENT (SOSE), MATHS, SCIENCE, INFORMATION TECHNOLOGY (IT), LANGUAGE OTHER THAN ENGLISH (LOTE), ARTS, PHYSICAL EDUCATION AND HEALTH. (HAPE)

There are guidelines in place and each state adds their own "flavour" to executing the curriculum. The Victorian Curriculum takes a multi-level approach by providing students of all levels with appropriate material. The advanced student, the average student and the special need student will all find a course of study, which not only meets their needs but also encourages growth and development. There are 6 levels to be achieved and each level takes two years to complete.

At the Multinational School the student will find highly qualified staff that are dedicated to providing a positive learning environment and to motivating students about learning. Like the states of Australia the Multinational School staff fine tune

the framework and tailor it to meet the needs of individual students. Teachers at the Multinational School provide a caring, safe, nurturing environment, which encourages students to achieve their full potential. Perhaps this why all our students feel so comfortable with the prospect of coming to school.

With a plethora of international schools in Riyadh, making the right choice for your child can be quite a daunting prospect. But if you're looking for a school that prides itself in providing a uniquely positive learning experience in a caring and supportive atmosphere, then the Multinational School is the right choice for you.

With wonderful new premises, small class sizes and the very best in education, you really can afford to give your child the very best at the Multinational School.
