

EP NEWS
continued

Our Charity Quiz Nights are run every couple of months or so and are well attended by members and guests. The questions are set by the previous winning team and range from the relatively easy (Who composed Beethoven's Fifth Symphony?) to the extremely hard (What is the weight of planet Earth – to the nearest billion tons?). Needless to say, the contesting teams are very vocal when an answer is disputed but we have a rule that the Chairman for the evening's decision is final.

The December Eid/Festive season saw a lull in activities for obvious reasons but most members are back now and we are looking forward to another year of business and social events that will raise the Association to even greater heights. Our AGM looms towards the end of April and the Committee are always looking for volunteers to bring a fresh perspective to our Group, be it on the business development side, contributions to the BBA Monthly Bulletin or assisting on the social scene.

This year sees another milestone in the British community's Eastern Province history – the 25th anniversary of the British School in Al Khobar (BISAK). They are planning a number of cultural and social events to mark the occasion, including a Gala Dinner in February and a joint BBA/BISAK Quiz Night in March.

As we go to press, Eid Al Adha is almost upon us and we sincerely hope that all our Muslim colleagues who are performing Hajj this year have a safe and peaceful journey.
