

Eric Edge
Construction SIG
Chairman

CONSTRUCTION SPECIAL INTEREST GROUP

Since the last issue of the magazine the Construction SIG scene has been fairly quiet due to Rammadam and then the annual exodus of expats for the seasonal break.

Although our planned guest speaker was unable to attend our October Meeting this was replaced at short notice by a Construction Machinery Demonstration held at Zahid Tractors on Thursday 31st. October.

The event was the first to be held in the new custom built demonstration area. The programme for the event was, after meeting and a buffet members were given a tour of Zahid's Construction Machinery Division Riyadh facilities, This was followed by a 90 minute demonstration of Constuction Plant, Material Handling Equipment and The new Challenger Agricultural Tractors. At the end of the Demonstration Members were invited to operate the machine and try their skill at cracking small eggs with large Excavator, without breaking the Excavators !.

Although the attendance was low members who did attend and Zahid employees enjoyed the afternoons attraction.

We plan to hold our next meeting in mid March where we hope to be able to welcome the Manufacturing members to our group and have our guest speaker attending.

This will be followed in April with a meeting to Elect New Officers for the next two years.
