

The Riyadh Branch of the Multi National School continues to grow its facilities to deliver increasing demands for quality education. The school opened six years ago with three students, today more than 400 children from more than thirty countries attend the school in Riyadh.

Following on closely from the completion of a SR1 m Junior Olympic Swimming Pool, the latest addition to the school is a SR1.5m Multi purpose Sports Hall currently under construction and well on the way to a grand opening later in the year.

The photographs show the progress and we look forward to inviting other Riyadh schools to participate and enjoy the new facility and future competitive events.

# Multi National School continues to grow

Both Paul Dugan the Governor, and Julia Jefferson the School Principal are keen to demonstrate it is possible to offer affordable schooling with reinvestment in facilities and infrastructure, to the delight of the children and parents using an internationally recognised curriculum.

To achieve these goals further growth and expansion are under discussion with additional facilities at the design stage seeking approval from the relevant authorities.

The residence gardens 'Rocked in Oct' when the Multinational School put on their annual fundraiser.

This year's theme was Country & Western and pretty much all the guys and dolls turned up in their duds, though some were a little more 'spangly' than others.

One or two 'naughty boys' had to be locked away for awhile, at least until the ransom money was raised to get them out, though Roger seemed in no hurry to depart his cell even then after he discovered the 'jail bait' inside!!!

Highlight of the evening was the draw for the Harley Davidson motorbike. As the 'Wanted' pictures show, there were plenty of hopefuls but winner Scott Melvin was eventually drawn from the barrel and was called

## Howdy, Howdy, Howdy

in from his wife's bedside, where she had recently given birth, to collect his new toy.

Although the prime purpose of the exercise had been to raise money to extend the school facilities, a significant donation was also made to ICING.

All the lighting and sound equipment was provided by Event production Services (EPS) who had a large team on duty on the night to ensure everything went smoothly. They'd also given freely of their services to support the cause. DJ Chris managed to blend in everything from line dancing numbers to some real head-banging stuff with enough good sound to keep the dance floor full all night.
