

# NEW PRODUCTS FROM BRITAIN

UK Companies whose products are illustrated below would welcome enquiries from Saudi companies prepared to act as Agents or representatives in the Kingdom. For more details contact Heather Shukry at The British Embassy or the companies themselves.

A high efficiency bypass oil filtration system, designed to remove both solid and liquid contaminants before they can cause engine or system damage.

Puradyn filters are available in a range of sizes, from the TF 8SP for engines with a 7.6 litre oil capacity up to the TF 240P for engines with an oil capacity of 227 litres, or hydraulic systems up to 3800 litres. They can be retrofitted to almost any application and can reduce new oil purchases by up to 90%

**REF: NP 5615**

Puradyn Filter Technologies Ltd  
Units 16 & 17,  
Samara Business Park  
Cavalier Road  
Heathfield Industrial Estate,  
Newton Abbott,  
Devon
