

## Riyadh Motor Sports Club 2001 / 2002 End of season results

RGBB Member Chris Maybury pictured here with fellow rider Bree Powell sent us in the following notes at the end of the season:

The Club had a very good year with 13 "Points" races and one away race at Abha. Next season will start towards the end of September and we hope to have at least two away matches at the Abha track, counting towards the championship, plus some 'National' Race Days.

The riders are often invited to race in Dubai but the customs formalities of shipping bikes, trailers, tools, etc there and to return again are too complicated to just drive over the border and back.

We survived the season without a cash sponsor but not without the free help of Al-Babtain Le Blanc, we could not have managed without their generosity in terms of lending us help and time to keep the facility maintained.

We are planning some track alterations over the summer months to improve it for both riders and spectators.
