

CONSTRUCTION & MANUFACTURING S.I.G.

Paul Gent
SIG Chairman

Eric Edge, the previous SIG Chairman left the Kingdom recently and on behalf of all Construction SIG members I wish him all the best. Eric put a lot of effort into getting regular meetings and events of interest organised and this was a constant uphill struggle.

I have taken on the role of Chairman and at a meeting to be arranged in the near future we need to vote in a Deputy Chairman. Ideally the position needs to be filled by someone from the Manufacturing Sector so that both sectors are represented.

The SIG has not met for some time now and the intention is to get the ball rolling at the next meeting by establishing exactly what members would like from and can contribute to the Group. A good turnout at the next meeting is vital to establish how we can take the Group forward.
