

NEW PREMISES-SMALLER CLASSES

I remember my school days very well, 35 or more in a class, blackboard and chalk, learning by rote.

Today at the Multinational School the class sizes average 18 students. The Teachers are caring and dedicated. The Multinational School's philosophy is that it is committed to providing a quality education that meets the needs of each student.

Some students need Learning Support in one or more subjects during the school day. The programme allows students to receive help on a "one to one" or small group basis. This programme has been very successful with students reaching the level required to return to mainstream classes in a short period of time.

Our students high level of academic achievement has been confirmed by the LAP (Learning Assessment Project) exams conducted by the Victorian Ministry of Education in Australia.

The Multinational School believes in giving every student the opportunity to a quality education in a caring and supportive environment. We do not believe in excluding students in an entry test or giving hours of homework, cramming textbooks or pushing students beyond realistic expectations.

We have a Professional Development programme that ensures our Teachers keep up with current issues and trends in education. This programme is provided by Melbourne University and the Victorian Education Department . Many of our Teachers are about to receive a Post Graduate Certificate of Education as a result of these courses.

It is good news that the Multinational School has a wonderful new premises to support its excellent academic programme.
