

Mick Brown
RGBB Exec. Board

Welcome to over 40 new members who have joined us since April. Our efforts to promote the RGBB within the community are obviously bearing fruit. The changed emphasis to utilise the BDC and the SIG's as much as possible have undoubtedly been behind this growth.

The willingness of Saudi Authorities to engage organisations like ours in greater dialogue is a clear indication that the value of the RGBB is recognised outside of our immediate circle and we look forward to increased co-operation in many areas.

The members database has now been installed on our website. If your details need updating, please advise the RGBB secretary.
